Welcoming Applied and Materials Science

**PHYSICS
science**

Lecturer:

Dr. Martin Rodriguez-Vega

Date/Time:

Associate Editor, Physical Review Letters
10:30-11:30, 3rd, August 2023

Location:

Room W202, S9-1 General Research Bldg. (総合研究棟W202)

In this talk, I'll provide an editor's perspective on publishing in Physical Review Letters, the American Physical Society's flagship journal. First, I'll cover general information about the journal, including its recently-updated acceptance criteria, which now welcomes more applied and materials science research. I'll then describe the peer-review process as seen from the editor's desk, including recommendations for writing and reviewing manuscripts. Finally, I'll explore the broader initiatives undertaken by the Physical Review journals to foster inclusivity for applied and materials science papers.

論文出版までの裏話が聞ける？どんな記事が求められている？PRLってどんな雑誌？
